4. Is it web-accessible?	Yes	Yes	Yes	By 2003	Yes	Yes
5. Is it Z39.50 compliant?	Yes	Yes	Not sure	Yes	By 2002	Yes
6. Which system and supplier is used?	Innopac system produced by Innovative Interfaces Inc.	Dynix	Voyager (?supplier)	CALM 200 + from DS Ltd	Talis	Endeavor Information Systems through Scottish Voyager Board Consortium
7. Can they be searched as individual collections if part of larger collection?	Yes all Fa stock can be isolated or any specific area	No	Yes, by shelf mark	Each part of collection to be searchable separately and any combination	Yes, by shelf mark	Yes

UCABLIS Questionnaire

8. No of items?	750 pa; 30,500 bks & catalogues + special collections; 290pps	200 pa	Not known	400 between 3 libraries	53,000 bks; 37,000 non books; 1,000p.a.	80,000 in total; 3,000 per annum
9. Would member libraries spend money to make this technically feasible? (by putting Zservers in place if not held or building indexes for the materials)	Already done	Not yet but will	Not known	Unlikely	No but to be Z39.50 compatible	Mostly should be in place Commissioning Endeavor unlikely due to budget restraints; may be able to handle on Consortium-wide basis.
10. How was UCABLIS kept up to date previously?	Tape	Paper records	-	Paper; latterly sent discs	Paper	Originally paper; Latterly tape dumps of Art & Design Library only. (MARC records from previous URICA system). Environmental Studies Library not included on tapes.
11. What level of use is made of UCABLIS?	Small user	None	Considerable - would use more if up-dated	Used once a month	None directly - users forwarded to NLS	Minimal use due to state of database

*NGS: National Galleries of Scotland
