Emerging Strategies for Supporting Student Learning
A practical guide for librarians and educators

BARBARA ALLAN

The latest book from Barbara Allan provides a straightforward and accessible guide to the latest learning and teaching practices appropriate for use with higher education students.

The higher education landscape is rapidly evolving due to changes in:

Apr 2016 | 240pp
Paperback
9781783300709
Price: £49.95

- the student population (millennials, increasing diversity, changing work habits)
- technology (the rise in the use of social media)
- learning spaces (the increase in physical and virtual social learning spaces).

User Experience in Libraries.

Edited by Andy Priestner, Cambridge University UK and Matt Borg Consulting, UK. Website JXLBS
Ebook, hardback and paperback. ISBN 978-1-4724-5100-2.

Aleximamot Associates. Higher Education and also Further Education.

AMA's mission

is to help organisations in using their space effectively to match their needs. We do so by understanding the organisations and their people, staying at the forefront of research and knowledge on the links between people and space, and drawing together psychologists and social scientists with architects and interior designers. We help them respond to new needs, by creating future-proofed buildings. We help with the change management process when new buildings reshape working and teaching practice.
